

Ellie Kim

Davis, CA | (530) 771-7209 | ellie.yso.kim@gmail.com | [linkedin.com/in/ellie-kim-26287025a](https://www.linkedin.com/in/ellie-kim-26287025a) | itch.io | [Art Portfolio](#)

PROFILE

Computer Science and Interactive Media & Game Development graduate with experience developing software features, gameplay systems, and user interfaces for web applications and Unreal Engine 5 projects. Proficient in C, C++, Java, SQL, Kotlin, JavaScript, and Python. Experience includes Git, Perforce, debugging, object-oriented design, software testing, and Agile/Scrum development.

EDUCATION

Worcester Polytechnic Institute (WPI)

Bachelor of Science, Double Major: Computer Science and Interactive Media & Game Development

Worcester, MA

May 2026

Honors: High Distinction | Dean's List | Presidential Scholarship | Lesley Small Scholarship

GPA: 3.8

Relevant Coursework: Software Engineering | Artificial Intelligence | Algorithms | Object-Oriented Design | Advanced Interactive Narrative | Technical Game Development | Operating Systems | Computer Graphics | Computer Animation | Digital Game Design

PROFESSIONAL EXPERIENCE

NEXGEN Asset Management

Sacramento, CA

Software Intern

Jul 2025 – Aug 2025

- Developed and updated client-facing web forms within an enterprise asset management software platform
- Executed SQL-based data updates across client databases to support application changes and maintain accurate records
- Analyzed form structures, input fields, and database mappings to ensure consistency with interface components and stored data

Worcester Polytechnic Institute

Worcester, MA

Peer Learning Assistant | Interactive Media & Game Development

Jul 2025 – Aug 2025

- Developed multimedia lecture content with faculty for a university course examining social issues in games and interactive media
- Engaged students through questions and feedback on their analysis of instructional materials surrounding ethics and social issues

Technical Illustrator | Computer Science Department

Aug 2024 – May 2025

- Created original diagrams and technical illustrations for the *Human-Centered Programming Languages* textbook
- Developed consistent visual standards for diagram structure, instructional graphics, technical notation, and information hierarchy

PROJECTS

Major Qualifying Project (MQP): *Billionaires Are Bad: Exposing Inequality Through Gameplay*

Aug 2025 – May 2026

- Served as Project Manager and Technical Developer for a narrative management and investigation game in Unreal Engine 5
- Designed and implemented gameplay systems for exploration, character interactions, and investigation-based progression
- Maintained Agile task tracking, addressed production dependencies, and documented technical development for the final report

Technical Game Development II: *Birdwatching Game* | Unreal Engine 5

Oct 2025 – Dec 2025

- Integrated 2D art assets and implemented user interface components within a 3D Unreal Engine 5 environment
- Developed an in-game camera and photography system that enabled player-controlled image capture
- Supported Git version control, tracked development logs, managed the itch.io project page, and presented the completed game

Technical Game Development I: *Pinsect Game* | C++ | Dragonfly Game Engine

Aug 2025 – Oct 2025

- Designed and programmed a 2D arcade game in C++ from concept through final implementation using Dragonfly Game Engine
- Implemented gameplay logic, player interaction, and game-state behavior through iterative development and functional testing
- Produced a gameplay trailer and presentation outlining the game mechanics, design process, and completed functionality

Interactive Qualifying Project (IQP): *Building Positive Culture Change in Merton, London, UK*

May 2024 – Jun 2024

- Designed a workforce research study using surveys, interviews, and focus groups with office and frontline employees
- Performed analysis and created data visualizations to assess communication, collaboration, and accountability

LEADERSHIP & ACTIVITIES

- **Leadership:** Korean Student Association, President and Treasurer | Undergraduate Student Advisory Board
- **Activities:** E-Sports Club, Overwatch Gray Team | Society of Asian Scientists & Engineers | Audiophiles A Cappella Group

TECHNICAL SKILLS

- **Programming Languages:** C, C++, Java, Kotlin, Python, JavaScript, SQL
- **Web and Version Control:** HTML, CSS, Flask, Git, GitHub, Perforce
- **Game Development:** Unreal Engine 5 (Blueprints, C++), Perlenspiel, Dragonfly Game Engine
- **Software Development:** Object-oriented design, debugging, testing, Agile/Scrum
- **Design and Media:** UI/UX, 2D character art, 3D modeling, 3D animation, technical illustration
