

Worcester Polytechnic Institute

Office of the Registrar

May 26, 2026

To Whom It May Concern:

Students in the undergraduate academic program at Worcester Polytechnic Institute are graded on the basis of competence, instead of in the traditional manner. Satisfactory work of students is evaluated as A, B, C grades. Course or project work for which credit is not earned is not placed on record. WPI students are not ranked.

There is no direct conversion formula that will meaningfully convert WPI grades to a numerical equivalent. Some outside agencies, in an attempt to compare our students with those from traditional programs, have done so based on the following criteria:

A	=	4.0 quality points
B	=	3.0 quality points
C	=	2.0 quality points

No evaluation is recorded for work of inferior or of unacceptable quality. The average is obtained by dividing the total quality points by the number of recorded credit hours. Such a computation for **Ellen Kim** yields 3.83/4.0.

To obtain a more accurate appraisal of this student's abilities, please contact members of the faculty who know the student well.

Sincerely,

Sarah K. Miles
University Registrar
SKM:nd
